Malte Hermann

ID-Student (4th Semester)

Stuttgart, 24.07.2025

Dear BMW recruiting team,

I was excited to learn about the internship opportunity in 3D Visual UX/UI Design at BMW Group. As a dedicated Information Design student at Aalen University, I am keen to improve my skills and contribute to innovative and multi-layered projects.

During my studies at Aalen University, I developed profound knowledge in visualising complex information, creating user centred forms of communication and expanding my prototyping skills by using Figma. I have gained experience creating visual media using Adobe Photoshop and InDesign, as well as animation, modelling and texturing in Blender. In addition software implementation using C# and JavaScript was also part of my studies. As course spokesperson I've learned to take responsibility and to coordinate different interests. I would enjoy applying these skills in cross-team collaboration at BMW.

The internship position piqued my interest because it would give me the opportunity to work on unique 3D experiences, test immersive user interfaces and contribute to future-oriented projects. I am eager to contribute to a professional environment and am confident that my attention to detail, timeliness and collaborative mindset will support your company’s goals.

I am readily available via email or phone to arrange an interview. Please do not hesitate to contact me if you have any questions. I would appreciate your consideration and look forward to your response.

Sincerely,

Malte Hermann
